There is No Competition!

Perfect Cut Oval Punches

Over 100 Standard Sizes
starting at 1/16 wide and up to 1-1/4 long
(see a complete list of sizes on the back.)

Custom Sizes
with lengths up to 2" long

Highest Tolerances in the Industry

The Perfect Cut Punch Line Exclusively from Ameri-Ken

Traditional hanger and oval punches are known to deform, have inconsistency in both the height and the body, and break easily, resulting in on-press downtime and re-knifing issues.

Ameri-Ken's exclusive process on the Perfect Cut line delivers a punch which is twice as strong as the traditional punch and eliminates deformation, inconsistencies and breakage issues.

After manufacturing we requalify the cut edge after the product is formed to ensure perfect quality on every Perfect Cut punch. The benefits are:

- Highest Tolerance in the industry
- Consistent height on cut edges
- Bevel angle stays consistent, no rollover
- Documented base for consistent fit
- 50% stronger than standard punches
- Perfect for kiss cutting.
