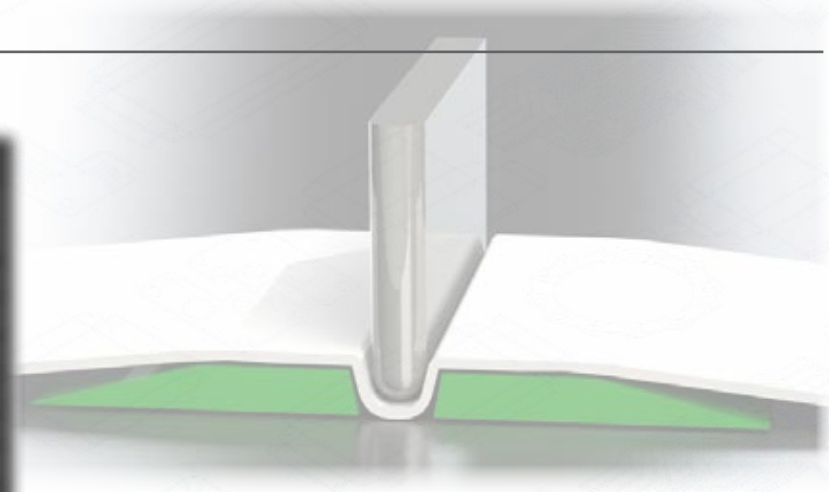
			#200 Black	#200 Black		.867



FASTER MAKEREADY! The unique ramp design eliminates taping of the edges and the aggressive adhesive guarantees exact location, allowing faster makeready times and less downtime on the press.

FASTER PRESS SPEEDS! The combination of the unique ramp design and exclusive tapered channel flies the sheet through the press at maximum speeds.

MORE PRECISE CREASES WITH LESS DOWNTIME! The tapered channel will reduce sheet breakup and bead channel snagging, reducing downtime on press during production runs.

LONGER LASTING! The tapered channel reduces the stress and abrasive wear of the upper corner of standard matrix that reduces the life of the matrix and changes crease performance from carton to carton.

SPEEDY CREASE

SPEEDY CREASE is available in both "Metal Sizes" and "Plastic Sizes"!
